

Hydraulic separator CPN 70 2F - DN 25 (1") for two heat sources

The CPN 70 2F - DN 25 hydraulic separator is made of steel. The factory is equipped in insulation, from the top in the connection for the vent (1/2" socket) and a built-in pipe for the temperature sensor and from the bottom in the drain connection (1/2" socket). The set includes a 3/8" vent with a 1/2" foot valve, a 1/2" drain valve, four 1" cast iron fittings and wall brackets.

Technical data:

Material:	steel
Maximum pressure:	8 bar
Maximum flow:	2,5 m ³ / h
Maximum temperature:	110 C
Insulation:	EPP black 40 g / l
Connection:	1"
